Part 266, as adopted by reference in NAC 444.8632, the Administrator must approve an operating plan for the facility before construction or operation of the facility commences. Such an operating plan must, without limitation, include a description of the procedures that will ensure safe operation and demonstrate compliance with:

(a) The requirements for emergency preparedness and a contingency plan specified in 40

C.F.R. Part 264, Subparts C and D, as adopted by reference in NAC 444.8632;

(b) The standards for containers and tanks specified in 40 C.F.R. Part 264, Subparts I, J, AA, BB and CC, as adopted by reference in NAC 444.8632; and

4. The provisions of this section do not apply to a person who is recycling hazardous waste which he or she has generated, at a unit for the recycling of hazardous waste which is owned by the person and is located at the same site at which the hazardous waste is generated.

5. The provisions of sections 1 through 4 above do not apply to hazardous waste recyclers, subject to 40 CFR 261.6(c)(2), that reclaim in a manner that complies with the requirements in 40 CFR 261.4(a)(23), (24), or (27).
