

## **Public Notice**

### **Categorical Exclusion**

#### **Drinking Water State Revolving Fund Loan**

Nevada Administrative Code (NAC) 445A.6758 to 445A.67612, inclusive, outlines the environmental review procedures to be followed by the Nevada Division of Environmental Protection (NDEP). This is considered the State Environmental Review Process that is to be consistent with the requirements of the National Environmental Policy Act. The project listed below qualifies for a **Categorical Exclusion** under NAC 445A.67583 because it is directed at the replacement of equipment or structures and the minor upgrading or expansion of the existing distribution system of a public water system. These actions include, without limitation, the replacement of existing mechanical equipment or structures, and sufficient evidence exists that a significant effect on the quality of the environment is unlikely.

**Project Name:** Transmission Upgrades Engineering & Permitting

Latitude: 36.26365  
Longitude: -115.29633  
Population: 25

The Coyote Crossing Water Well Association, also known as the Fort Apache Ann NE Water Association, NV0000430, operates the private water system for the community located in northwestern Las Vegas of Clark County, Nevada. This project will utilize the Nevada Drinking Water State Revolving Fund (DWSRF) in the amount of **\$64,832.95**. The project is listed on the DWSRF Priority List-Effective May 2026 as: **Class III Rehabilitation #182.**

Coyote Crossing Water Well Association provides 16 service connections for their community.

NDEP is designated by the United States Environmental Protection Agency as the lead agency for proposed projects funded by the DWSRF program for the State of Nevada. Coyote Crossing Water Well Association has applied for funding for the design and installation of a **redundant pump and the associated appurtenances.**

This project is located within the city of Las Vegas, Nevada. This project will include the purchase and installation of two water pumps and associated appurtenances, an upgrade of the pressure tank, installation of a variable frequency drive, and the replacement of existing

galvanized piping. This project will support the requirements to bring this system into compliance and become a permitted water system.

No wetlands, floodplains, agricultural lands, or significant fish or wildlife species or habitats will be affected by the project area of potential impacts. No national landmarks or property with nationally significant historic, architectural, prehistoric, archeological, or cultural value will be affected by the project.

In accordance with NAC 445A.67584, a **15-day public comment period** is required for this action. Persons wishing to obtain further information regarding the project should submit their comments no later than **June 10, 2026**. Comments can be submitted to Daniel Morgan, Environmental Scientist, Office of Financial Assistance, State Revolving Fund Program, Nevada Division of Environmental Protection. The process of environmental review shall be deemed complete if no comments that the NDEP determines to be significant are received within the time allowed for public comment.
