FEDERAL FACILITY AGREEMENT AND CONSENT ORDER

(FFACO) QUARTERLY REPORT

Background

The Federal Facility Agreement and Consent Order (FFACO) is a legal document by which the Nevada Division of Environmental Protection (NDEP) assures citizens of Nevada that the public's health and safety, as well as the environment, are protected in regards to the Nevada National Security Site (NNSS), parts of the Nevada Test and Training Range (NTTR), parts of the Tonopah Test Range (TTR), and the two Nevada Off-Sites, Central Nevada Test Area (CNTA) and Project Shoal Area (PSA). Nevada Off-Sites are a group of sites where underground nuclear tests occurred out of the boundaries of the NNSS.

The FFACO identifies sites of potential historic contamination that require corrective actions based on public health and environmental considerations on the NNSS, the NTTR, the TTR, CNTA, and PSA.

Industrial Sites Activity

At the end of September 2025, there were 1962 historical Corrective Action Sites (CASs) (out of 1970 total) that have been closed, with three (3) CASs in Corrective Action Unit (CAU) 114 and five (5) CASs in CAU 572, all of which continue to undergo active D&D work by the Department of Energy's Environmental Management Nevada Program (EM NV).
