

**Notice of Request for Section 401 Water Quality Certification Action - Bureau of Water Quality Planning**

**Web Posting: 11/15/2024**

**Deadline for Comments: 12/16/2024**

**NV Energy Valmy Lateral Pipeline Project  
Humboldt County**

**Mott MacDonald  
6975 South Union Park Center, Suite 600  
Midvale, Utah 84047**

**Certification Action Number NV-401-24-044**

The Pinyon Pipeline Company, LLC (Pinyon) proposes to construct, operate, and maintain a new natural gas pipeline and associated aboveground facilities north of Valmy, Humboldt County, Nevada, referred to as the Pinyon Pipeline Project (PPP). The PPP is composed of approximately 15.98 miles of new, 24-inch diameter natural gas steel pipeline, along with associated measurement facilities. In addition to the PPP, Ruby Pipeline, LLC, proposes to construct, operate, and maintain a new interconnect and meter station to supply natural gas to the PPP. All but one waterbody in the Project area is ephemeral or intermittent and the Project plans to cross these waterbodies when they are not flowing. A single stream, Spring Creek, is perennial; the Project plans to cross this stream via a dry-ditch method. Project construction is anticipated to start in June 2025 and is expected to be completed by November 2025. The proposed activities will require the use of Nationwide Permit 12 (SPK-2024-00390) administered by U.S. Army Corps of Engineers.

A 401 certification (or a waiver of certification) is required for any federal license or permit that authorizes activities that may result in any discharge into waters of the United States. Nevada Division of Environmental Protection is in receipt of a complete request for certification in compliance with Clean Water Act Section 401 Certification regulations which the U.S. Environmental Protection Agency promulgated in 2023, codified as 40 CFR 121.

The Administrator is evaluating whether the proposed activity will comply with applicable water quality requirements. Certification actions are valid for the duration of the federal license or permit (typically five years). Any conditions contained within the certification action become a condition of the federal license or permit.

Persons wishing to comment on the application for consideration by the Administrator in making a determination regarding the certification action should submit their comments or request a hearing in writing, emailed no later than 5:00 P.M. on 12/16/2024:

Bureau of Water Quality Planning  
901 South Stewart Street, Suite 4001  
Carson City, Nevada 89701-5249  
[ndep401@ndep.nv.gov](mailto:ndep401@ndep.nv.gov)

The request for a hearing must be filed within the comment period and must indicate the interest of the person filing the request and the reasons why a hearing is warranted. All water quality-related comments or objections received within the thirty (30) day period will be considered in the formulation of final certification action regarding the application. If written comments indicate a significant degree of public interest in the proposed permit, the Administrator shall hold a public hearing. A public notice of such hearing will be issued not less than thirty (30) days prior to the hearing date.

The applications, proposed permits, comments received, and other information are on file and may be copied, or copies may be obtained by writing to the above address or by contacting Zachary Carter, Bureau of Water Quality Planning, at (775) 687-9456 or [ndep401@ndep.nv.gov](mailto:ndep401@ndep.nv.gov). The public notice for this project can be viewed at the following website: <https://ndep.nv.gov/posts/category/water>.

Please bring the foregoing notice to the attention of all persons interested in this matter.
