NOTICE OF PROPOSED ACTION

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes and/or the Clean Water Act, where applicable. The Administrator has received an application for a Groundwater Discharge, permit number NS2010507 from the following applicant:

STRATUS ENVIRONMENTAL, INC.
3330 CAMERON PARK DRIVE, SUITE 550
CAMERON PARK, CA - 95682

Permit NS2010507, CHUCK'S CIRCLE C MARKET:

The Permittee, Stratus Environmental, Inc., has applied for the renewal of Permit NS2010507 for Chuck's Circle C Market, at 20255 Cold Springs Drive, in Reno, within Washoe County, Nevada. The Permittee proposes to continue discharging treated groundwater to a storm drain inlet that empties into the White Lake playa for infiltration.

Chuck's Circle C Market is a gas station and convenience store in Reno, Nevada, near the Nevada-California border. This site has an operational groundwater remediation system associated with a leaking underground storage tank. The treatment process consists of filtration, followed by activated carbon adsorption of volatile organic compounds. The design capacity of this pump and treat system is 0.015 million gallons per day. The treated water is discharged to groundwaters of the State via infiltration in White Lake (playa) located approximately 1,000 feet east of the facility.

On the basis of preliminary review of the requirements of the Nevada Revised Statutes, as amended, and implementing regulations, the Administrator proposes to issue Permit NS2010507 to discharge for a five (5) year period, subject to certain effluent limitations.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance should submit their comments or request, in writing, hand delivered or postmarked no later than 5:00 P.M. on 08/24/2026, either in person or by mail to:

Department of Conservation and Natural Resources
Division of Environmental Protection
Bureau of Water Pollution Control

The request must be filed within the comment period and must indicate the interest of the person filing the request and the reasons why a hearing is warranted. All comments or objections received within the thirty (30) day period will be considered in the formulation of final determination(s) regarding the application. If written comments indicate a significant degree of public interest in the proposed permit, the Administrator shall hold a public hearing. A public notice of such hearing will be issued not less than thirty (30) days prior to the hearing date.

If no hearing is held and the determinations of the Administrator are substantially changed from the tentative determinations, the Administrator will give public notice of the revised determinations. Additional comments and objections will be considered at that time.

A public hearing on the proposed determination can be requested by the applicant, any affected State, any affected interstate agency, the Regional Administrator of EPA Region IX or any interested agency, person or group of persons. The request must be filed within the comment period and must indicate the interest of the person filing the request and the reasons why a hearing is warranted. Any public hearing determined by the Administrator to be held must be conducted in the geographical area of the proposed discharge or any other area the Administrator determined to be appropriate. All public hearings must be conducted in accordance with NAC 445A.238.
