Carson City, NV89701**

Certification Action Number NV-401-26-022

The purpose of this project is to enhance wetland habitat on Winters Ranch and restore aquatic and riparian habitats in and along Ophir, Davis, and Winters Creeks in Washoe Valley, Washoe County, Nevada. The project proposes one (1) boulder step and nine (9) rock riffles on Ophir Creek; eighteen (18) sod plugs on the eastern portion of Winters Ranch; twenty (20) beaver dam analogs on Winters Creek and other flow paths on the eastern portion of Winters Ranch; one (1) breach of a railroad berm on the eastern portion of Winters Ranch, spanning approximately 70 feet; and up to two (2) graded shallow depressions. Construction is anticipated to commence as soon as the work is authorized, given appropriate site conditions and availability of resources. As this project is comprised of multiple sub-projects, work may span up to five years. The project proponent has requested certification for the use of Nationwide Permit 27 (Aquatic Ecosystem Restoration, Enhancement, and Establishment Activities) under Clean Water Act Section 404 administered by the U.S. Army Corps of Engineers.

A 401 certification (or a waiver of certification) is required for any federal license or permit that authorizes activities that may result in any discharge into waters of the United States. Nevada Division of Environmental Protection is in receipt of a complete request for certification in compliance with Clean Water Act Section 401 Certification regulations which the U.S. Environmental Protection Agency promulgated in 2023, codified as 40 CFR 121.

The Administrator is evaluating whether the proposed activity will comply with applicable water quality requirements. Certification actions are valid for the duration of the federal license or permit (typically five years). Any conditions contained within the certification action become a condition of the federal license or permit.

Persons wishing to comment on the application for consideration by the Administrator in making a determination regarding the certification action should submit their comments or request a hearing in writing, emailed no later than 5:00 P.M. on 10/2/2026:

Bureau of Water Quality Planning
901 South Stewart Street, Suite 4001
Carson City, Nevada 89701-5249
ndep401@ndep.nv.gov

The request for a hearing must be filed within the comment period and must indicate the interest of the person filing the request and the reasons why a hearing is warranted. All water quality-related comments or objections received within the thirty (30) day period will be considered in the formulation of final certification action regarding the application. If written comments indicate a significant degree of public interest in the proposed permit, the Administrator shall hold a public hearing. A public notice of such hearing will be issued not less than thirty (30) days prior to the hearing date.

The applications, proposed permits, comments received, and other information are on file and may be copied, or copies may be obtained by writing to the above address or by contacting Zachary Carter, Bureau of Water Quality Planning, at (775) 687-9456 or ndep401@ndep.nv.gov. The public notice for this project can be viewed at the following website: <https://ndep.nv.gov/posts/category/water>.

Please bring the foregoing notice to the attention of all persons interested in this matter.
