

NOTICE OF PROPOSED ACTION

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes and/or the Clean Water Act, where applicable. The Administrator has received an application for a Groundwater Discharge, permit number NS0092024 from the following applicant:

LEGACY GOLF CLUB
130 PAR EXCELLENCE DR.
HENDERSON, NV - 89074

Permit NS0092024, THE LEGACY GOLF CLUB:

The Permittee, Legacy Golf Club, has applied for renewal of groundwater discharge permit NS0092024 for the Legacy Golf Course, located at 130 Par Excellence Drive in Henderson, Clark County, Nevada. The Permittee proposes to continue using tertiary-treated, denitrified, and disinfected reclaimed water (Category B bacteriological quality reuse water, per NAC 445A.276) supplied by the City of Henderson's water reclamation facilities (Kurt R. Segler and Southwest Water Reclamation Facilities, Permit NS0080003) for irrigation of the Legacy Golf Course. The course is a 155-acre, 18-hole course consisting of Bermuda grass and bluegrass mix. The reclaimed water is combined from the two facilities, conveyed via a 24-inch mainline, and used to fill the storage ponds at the Hole 17 greens through a 10-inch lateral line. Reuse water discharges onsite via spray and drip irrigation on the greens, trees, and other landscape areas. The Permittee requests the same daily maximum flow rate of 2.5 million gallons per day.

On the basis of preliminary review of the requirements of the Nevada Revised Statutes, as amended, and implementing regulations, the Administrator proposes to issue Permit NS0092024 to discharge for a five (5) year period, subject to certain effluent limitations.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance should submit their comments or request, in writing, hand delivered or postmarked no later than 5:00 P.M. on 11/09/2026, either in person or by mail to:

The request must be filed within the comment period and must indicate the interest of the person filing the request and the reasons why a hearing is warranted. All comments or objections received within the thirty (30) day period will be considered in the formulation of final determination(s) regarding the application. If written comments indicate a significant degree of public interest in the proposed permit, the Administrator shall hold a public hearing. A public notice of such hearing will be issued not less than thirty (30) days prior to the hearing date.

If no hearing is held and the determinations of the Administrator are substantially changed from the tentative determinations, the Administrator will give public notice of the revised determinations. Additional comments and objections will be considered at that time.

A public hearing on the proposed determination can be requested by the applicant, any affected State, any affected interstate agency, the Regional Administrator of EPA Region IX or any interested agency, person or group of persons. The request must be filed within the comment period and must indicate the interest of the person filing the request and the reasons why a hearing is warranted. Any public hearing determined by the Administrator to be held must be conducted in the geographical area of the proposed discharge or any other area the Administrator determined to be appropriate.
