

NOTICE OF PROPOSED ACTION

by the
State of Nevada
Division of Environmental Protection
Bureau of Air Pollution Control

PUBLIC NOTICE

Pursuant to Nevada Revised Statutes (NRS) Chapter 445B, the Nevada Administrative Code (NAC) Chapter 445B, and the Clean Air Act, the Nevada Division of Environmental Protection is issuing the following Notice of Proposed Action.

The Director received an application for three renewals, four minor revisions, and an operating permit to construct rollover to Class I Air Quality Operating Permit (AQOP), AP3241-0387 (FIN A0030) from the following applicant:

Nevada Cement Company
1290 West Main Street
Fernley, NV 89408

Nevada Cement Company (NCC) is located north of Interstate 80 on the corner of Main Street and Commerce Center Drive. Take Exit 46 at Fernley, travel north on Main Street and turn right at Commerce Center Drive to enter the facility. The project is located in all or portions of Sections 10 and 11, Township 20N, Range 24E, M.D.B.&M.

NCC is proposing to renew and revise their Class I AQOP and roll over their Class I OPTC, AP3241-3431, to the AQOP. The minor revisions include a new Finish Mill #4 (Systems 34 through 34F, 35, and 36), addition of a lime injection system, addition of transfer point emission units (S2.108, S2.109, S2.124 through S2.127, and PF1.030 through PF1.033), and permitting the carpet shredding operation that was previously listed as Insignificant Activities.

These projects initially went through public notice in November 2022; however, the draft permit must go through public notice once again as it went through significant changes due to public and U.S. Environmental Protection Agency (EPA) comments.

On the basis of the preliminary review and the requirements of the NRS, the NAC and the Clean Air Act, the Director is hereby announcing his intent to issue the proposed Class I Air Quality Operating Permit based on a review of the information submitted. A copy of this document, the draft operating permit, and the Director's Review will be available for public inspection at <https://ndep.nv.gov/posts>.

Persons wishing to comment regarding this proposed action, or to request a hearing pursuant to NRS 445B Air Pollution and NAC 445B Air Controls, should submit their comments or request in writing, either in person or by mail within thirty (30) days to:

Jaimie Mara
Nevada Division of Environmental Protection
Bureau of Air Pollution Control
901 South Stewart Street, Suite 4001
Carson City, Nevada 89701
aircomments@ndep.nv.gov

The application, Director's Review, proposed permit, any comments received, and other relevant information may be copied at the above address or copies may be obtained by written request to the above address. Written comments or objections will be received at NDEP, above address, until **March 12, 2025**, and will be retained and considered prior to final action on the proposed Class I Air Quality Operating Permit.

The BAPC will submit the proposed Class I Air Quality Operating Permit to the EPA for a 45-day review period on the same day the 30-day public comment period commences. If the BAPC has not addressed any received comments in a satisfactory manner, and the EPA does not object to the Class I Air Quality Operating Permit during its review period, the public may submit a petition to the EPA requesting to reconsider issuance within 60 days after the expiration of the 45-day review period.

Please bring the foregoing notice to the attention of all interested persons.
