DIVISION OF ENVIRONMENTAL PROTECTION – BUREAU OF AIR POLLUTION CONTROL

Director's Review and Preliminary Determination of Permit Issuance for

**Nevada Department of Corrections
Northern Nevada Correctional Center
Carson City County, Nevada
January 12, 2026**

Nevada Department of Corrections (NDOC) submitted an application for an administrative renewal Class II Air Quality Operating Permit, AP9223-2093, FIN A0670A, for the Northern Nevada Correctional Center facility in Carson City County, Nevada. The project is located in Carson City, Nevada, in all or portions of Section 04, Township 14, Range 20, M.D.B.&M.

Administrative renewal of the Class II Air Quality Operating Permit AP9223-2093.

The Nevada Division of Environmental Protection – Bureau of Air Pollution Control (BAPC) has reviewed the application for the above-referenced operating permit and has made a preliminary determination to issue the operating permit. The facility-wide Potential to Emit (PTE), including emissions from non-permit equipment are given in the table below.

	<i>Northern Nevada Correctional Center Potential to Emit (PTE)</i>	
	Pollutant	Facility-Wide (tons/year)
PM	Particulate Matter	1.42
PM ₁₀	Particulate Matter \leq 10 microns in diameter	1.42
PM _{2.5}	Particulate Matter \leq 2.5 microns in diameter	1.42
SO ₂	Sulfur Dioxide	0.17
NO _x	Oxides of Nitrogen	19.93
CO	Carbon Monoxide	15.15
VOC	Volatile Organic Compounds	1.62
HAPs (all)	Hazardous Air Pollutants	0.33

The project is located in Air Quality Hydrographic Area (HA) 105 of the Carson Valley. HA 105 is not a triggered basin for an increment analysis. NDOC will be subject to 40 CFR Part 63 Subpart CCCCCC – National Emission Standards for Hazardous Air Pollutants for Source Category: Gasoline Dispensing Facilities.

Air dispersion modeling conducted by the applicant and the Nevada Division of Environmental Protection – Bureau of Air Quality Planning (BAQP) demonstrates that continued operation of NDOC, will not violate any air quality standard.

NDOC must comply with all State and Federal air quality requirements and all conditions established within the proposed draft Class II Air Quality Operating Permit.
