**WHY:**

In order to maintain a consistent RCRA program, NDEP is proposing modifications to the State's current hazardous waste regulations. The impact of these amended regulations will result in the removal of some requirements while adding new and updated federal regulations. The purpose of these sessions is to open discussions on what Nevada plans to adopt as well as receive the community's feedback.

The topics covered by these sessions are presented in the agenda below and more in-depth in the presentation provided on NDEP's website (link below). To ensure a productive and efficient presentation, and to ensure that your concerns are addressed, please submit all initial questions and comments to Skylar Jones by email at [s.jones@ndep.nv.gov](mailto:s.jones@ndep.nv.gov) before July 15, 2019.
