I. Introduction

The Nevada Department of Environmental – Bureau of Sustainable Materials Management (Division) provides the following Fact Sheet in conjunction with the Permit for the Nevada Tire Recycling Waste Tire Management Facility (WTMF) Permit Application – pursuant to the Solid Waste Disposal Regulations of the Nevada Administrative Code **NAC 444.641.3(b)**

Permittee Name: Nevada Tire Recycling, LLC

Facility Name: Nevada Tire Recycling WTMF

Permit Number: SW1911REV00

1. Description of Proposed Permit Modification

Not applicable (N/A) as this is a new permit.

2. Location and Land Use Information

The Nevada Tire Recycling WTMF is located within Churchill County, located North of the City of Fallon, Nevada. The facility is located within a 5 acres parcel (003-691-61 approximately an eight of a mile West of U.S. Highway 95 Veterans Memorial Highway. The Churchill Regional Planning Commission approved a Business License (BP) for the facility on February 5, 2025.

3. The Divisions Proposed Action

The Nevada Division of Environmental Protection - Bureau of Sustainable Materials Management (Division) is proposing to approve and issue the new solid waste Permit.

4. Facility Summary

4.1 General Information

The facility is an outdoor Waste Tire Management Facility, consisting of one loading area, one processing area, one transport area, contiguous land, structures, and other appurtenances and improvements for the processing of permitted waste tires as approved by the Nevada Division of Environmental Protection – Bureau of Sustainable Materials Management (Division). Waste tires will be brought in by registered waste tire haulers or private vehicles and either immediately processed through the tire chipper mechanism or temporarily stored for up to a maximum of 30 days until it can be processed. Tire remains will be sent to the Russell Pass Landfill (SW0130) and the Lockwood Regional Landfill (SW0214) afterwards.

4.2 Maximum Inventory

The facility operates under a just-in-time processing model but is permitted to store temporarily up to 4,990 waste tires onsite before processing.

4.3 Air Pollution Control (APC) System

No Air Pollution Control Permit was required by the Bureau of Air Pollution Control.

4.4 Accepted Materials

The only types of materials that may be accepted for processing are the following:

- a. Passenger vehicle tires
- b. Truck tires
- c. Off-road tires
- d. Tractor tires
- e. **Reserved**

4.5 Prohibited Materials

The types of materials prohibited include, but not limited to, the following:

- a. All wheels
- b. Tire Pressure Monitoring System (TPMS) sensors
- c. No other material or waste will be accepted unless prior written approval is received from the Nevada Division of Environmental Protection.
- d. **Reserved**

5. Document Availability

The ADMINISTRATIVE RECORD, which includes the DRAFT PERMIT, and correspondence are available for public review online at <https://ndep-onbase.nv.gov/> or by contacting:

Located at: Nevada Division of Environmental Protection
Bureau of Sustainable Materials Management
901 S. Stewart St., Suite 4001
Carson City, NV 89701-5249
Main Line: 775.687.9462

6. Procedure for Public Review

Questions or comments may be submitted on or before the end of the public comment period.

In writing to: Permitting Branch Supervisor
Bureau of Sustainable Materials Management
901 S. Stewart St., Suite 4001
Carson City, NV 89701-5249

Emailed to: solidwaste@ndep.nv.gov

The Division's Notice of Intent to approve the Permit for the Nevada Tire Recycling WTMF Facility subject to the conditions contained in the Permit, will be published on the NDEP website. Additionally, the Public Notice will be mailed to interested persons on our mailing list. The Division will accept written comments on the proposed draft permit from all interested persons until the end of the public comment period.

7. Public Hearing

A public hearing will be held if requested during the public comment period.

8. Comment Period

The 30-day comment period will begin on April 1, 2026 at 8:00 a.m. and end on May 1, 2026 at 5:00 p.m. on. Those wanting to comment should do so by writing. The Division may extend the comment period as deemed necessary.

Within the 30-day comment period the NDEP-BSMM received one comment from the Churchill County Public Works, Planning, & Building Department confirming the Conditional Zoning Permit was issued for NV Tire Recycling.

1. Nevada Tire Recycling Waste Tire Management Facility (WTMF) Application

1. Facility Summary

The Nevada Tire Recycling Waste Tire Management Facility (WTMF) is a WTMF site owned and operated by Nevada Tire Recycling, LLC. The WTMF serves as a temporary processing site for the Churchill County municipality, where waste tires are delivered to the site by waste transport or private vehicles. The facility is an outdoor processing waste tire site and is authorized to accept only accept waste tires as described in Section C(2) below; no other waste is permitted for acceptance at this facility.

The Nevada Tire Recycling WTMF accepts waste predominantly from the local community (City of Fallon) and at the Permittee’s discretion limited adjacent areas. Closure of the facility will proceed in accordance with this Permit and Permit Attachments.

1.1 Permit Modification History

The Nevada Tire Recycling WTMF Permit has not been modified.

Table 1. Permit Modification History

Revision	Modification Description	Organization	Issued Date
REV00	Initial Permit	Nevada Tire Recycling, LLC	May 20, 2026

1.2 General Description

The Permit authorizes the construction and operation of an outdoor Waste Tire Management Facility, consisting of one loading area, one processing area, one transport area, contiguous land, structures, and other appurtenances and improvements for the processing of permitted waste tires as approved by the Nevada Division of Environmental Protection - Bureau of Sustainable Materials Management (Division).

1.3 Owner and Operator

The Nevada Tire Recycling WTMF is currently owned and operated by Nevada Tire Recycling, LLC.

Table 2. Owner and Operator of the Facility

Relation	Owner / Operator	Headquarter
Name	Nevada Tire Recycling, LLC	Nevada Tire Recycling, LLC
Physical Address	11555 Lovelock Highway	11555 Lovelock Highway
County, State Zip	Fallon, NV 89406	Fallon, NV 89406

1.4 Facility Location

The facility is located approximately 18 miles North of the of the city of Fallon, Nevada and approximately an eighth of a mile West of U.S. Highway 95 Veterans Memorial Highway in

Churchill County. The property’s legal description is within SW¼ of the SE¼ of Section 25, Township 21 North, Range 28 East MDB&M.

Maximum Storage of Waste Tires Onsite (tires)	4,990	...
Maximum Storage of Waste Tires Onsite (tons)	50	
Theoretical Maximum Annual Processing Rate (PTE/yr)	3,200,000	...
Maximum Storage of Chipped Waste Tires (tons)	50	...

* Where PTE = Passenger Tire Equivalent and where a PTE is equivalent to approximately 20 lbs/PTE

2. General permit Conditions

2.1 Definitions

Unless the context otherwise requires, the definitions used in this Permit have the meanings ascribed to them in **NAC 444.200 to 444.270**.

“Wheel” means the cylindrical metal component designed to support and mount a tire.

2.2 Permit Actions

This Permit is based upon the information submitted in the Initial Permit Application, and subsequent modifications, as approved by the Division. This Permit is effective for **5 years** from the date of signature and must be renewed by the Permittee prior to expiration as required by **NAC 444A.330**. This Permit may be modified by the Division, for cause, in accordance with **NAC 444A.330** or if there is a change in the statutes or regulations upon which the issuance of the Permit is based, or if a modification is otherwise necessary to protect public health, safety, and the environment. This Permit may be revoked or suspended if written notice is given by the Division and the solid waste management facility does not remain in compliance with the applicable statutes and regulations. The filing of a request by the Permittee for a Permit modification or termination, or a notification of planned changes or anticipated noncompliance, or termination of activities authorized in the Permit does not stay any Permit condition. The Permittee shall inform the Division of any deviation from or change in the operations as presented in the Initial Permit Application, which may affect the Permittee's ability to comply with applicable regulations or conditions of this Permit. This Permit may be transferred to a subsequent owner or operator only if the Division approves the transfer based on documentation of financial responsibility provided by the new owner or operator.

2.3 Availability of Permit Documents

The Permittee shall keep at the solid waste management facility, a complete copy of this Permit and incorporated documents, as identified herein.

2.4 Compliance With Statutes and Regulations

The Permittee shall comply with **NRS 444A.200** through **444A.430**, as applicable.

2.5 Duty to Provide Information

In accordance with **NRS 444.556**, the Permittee shall furnish to the Division, within a reasonable time, any relevant information which the Division may request to determine compliance with this Permit or to determine whether cause exists for modifying, revoking and reissuing, or terminating this Permit. The Permittee shall also furnish to the Division, upon request, copies of records required to be kept by this Permit.

2.6 Incident Reporting

The Permittee shall report incidents to the Division as provided in the Operating Plan of the Initial Permit Application. In addition, the Permittee shall report any noncompliance, imminent or existing hazard from a release of waste or hazardous constituents, any fire or explosion at the facility, or any condition which may endanger human health or the environment.

- a. Such information shall be reported to the Division within 24 hours from the time the Permittee becomes aware of the circumstances by **any** of the following methods:
 1. Emergency Response Commission (Spill Hotline) telephone at 888.331.6337
 2. Online at: nevadaenvironmentalactivities.ndep.nv.gov/Spill/ReportForm.aspx
 3. *Reserved*
- b. A written report shall be submitted to the NDEP-BSMM within 15 days of the incident and shall include the following:
 1. Name and title of person making report;
 2. Date, time, and type of incident;
 3. Name(s) and quantity of material(s) involved;
 4. A complete description of the occurrence and its cause;
 5. The extent of injuries, if any;
 6. An assessment of actual or potential hazards to the environment and human health outside the facility, where this is applicable;
 7. Estimated quantity and disposition of recovered material that resulted from the incident;
 8. Actions taken by the Permittee in response to the incident; and
 9. Actions taken by the Permittee to prevent similar incident from occurring.

2.7 Reporting Anticipated Non-Compliance

The Permittee shall give advanced notice to the Division of any planned changes in the permitted facility or activity that may result in noncompliance with Permit requirements.

2.8 Inspection and Entry

Per **NRS 444.570** the Permittee shall allow the Division, or an authorized representative, upon the presentation of credentials or other documents as may be required by law, to:

- a. Enter at reasonable times upon the Permittee's premises where a regulated facility or activity is located or conducted, or where records must be kept under the conditions of this Permit;
- b. Have access to and copy, at reasonable times, any records that must be kept under the conditions of this Permit;

- c. Inspect at reasonable times any facilities, equipment (including monitoring and control equipment), practices, or operations regulated or required under this Permit; and
- d. Sample or monitor at reasonable times, for the purposes of assuring Permit compliance or as otherwise authorized, any substances or parameters at any location subject to the Permit.

2.9 Permit Renewal and Closure

If the Permittee wishes to renew this Permit the Permittee must:

- a. Submit an application for renewal to the solid waste management authority at least 180 days before this Permit expires;
- b. Provide any information concerning the operation of the facility that was not submitted with application for the initial permit or the renewal of the permit;
- c. Revise any information that has changed since the last submittal of an application for the permit to the solid waste management authority; and
- d. This Permit will remain in effect should the Permittee file a timely notification of continued operation in accordance with **NAC 444A.340(3)**.

If the Permittee fails to renew the application in accordance with Section 2.9 the Permittee shall close the Facility within 12 months in accordance with **NAC 444A.400** and notify the Division of the intent to close

3. Specific Permit Conditions

3.1 Permit Documents

The following documents, as submitted by the Permittee and approved by the Division also describe and/or restrict the operation of this solid waste management facility and are incorporated into this Permit by reference:

- a. Permit Application dated March 6, 2026;
- b. *Reserved*

In the event of any conflict, the most restrictive document shall govern.

3.2 Solid Wastes Permitted for Disposal

The Permittee is allowed the acceptance of the following wastes for processing:

- a. Passenger vehicle tires
- b. Truck tires
- c. Off-road tires
- d. Tractor tires
- e. *Reserved*

3.3 Prohibited Solid Wastes

The Permittee is prohibited from accepting the following wastes for processing:

- a. Wheels
- b. Tire Pressure Monitoring System (TPMS) sensors
- c. No other material or waste will be accepted unless prior written approval is received from the Nevada Division of Environmental Protection.
- d. *Reserved*

3.4 Recordkeeping

The Permittee shall maintain records at the site as described below.

- a. The following information, if applicable:
 1. The number of passenger tire equivalents or tons of material processed from tires received, stored and shipped at the facility.
 2. The names and registration numbers of haulers of waste tires who transport each shipment to and from the facility. If a hauler is not required to be registered, the record must include his or her address.
 3. The origin of each shipment of waste tires to the facility and the destination of each shipment from the facility.
- b. Copies of the manifest required by **NAC 444A.450**;
- c. Records of inspection, training procedures and procedures for notification required by **NAC 444.6665**;
- d. Plans for closure and any monitoring, testing or analytical data required by **NAC 444A.400 to 444A.430**, inclusive;
- e. Any documentation of cost estimates and financial assurance required by **NAC 444.685**.

The owner or operator shall promptly notify the Division when the documentation has been placed in or added to the operating records. All information contained in the operating records must be furnished upon request to the Division or be made available at all reasonable times for inspection by the Division.

4. Reporting

4.1 Solid Waste Reporting

- a. The Permittee shall, submit annually to the Division an Annual Report, pursuant to **NAC 444A.390**. The report shall be submitted by a method prescribed by the Division. Submitted within 30 days following the end of each calendar year period (by January 30 of each year). Such information shall be reported to the Division by the following methods;
 1. Entering the information directly into a Division managed Database, or if the database is not available;
 2. A form prescribed by the Division

4.2 Financial Assurance Reporting

The Permittee shall:

- a. Notify the Division of any adjustments made to the estimates for the amounts of closure care in accordance with **NAC 444A.410**; and
- b. Before or by thirty (30) days following the end of each calendar year, by January 30, including the year of the issuance of this Permit, the Permittee shall submit the closure and post-closure cost estimates adjusted for inflation.
 1. Submittals shall conform to the allowable mechanisms found in **NAC 444.68525**.
 2. Submit proof that the allowable financial assurance mechanism is fully funded in accordance with **NAC 444.6851**.

5. Monitoring

5.1 Groundwater Monitoring

- a. Groundwater monitoring is not required for this effective Permit.

6. Miscellaneous Conditions

6.1 Facility Conditions

- a. The Operator is responsible for all waste received at the facility.
- b. The storage of outgoing residue outside the property boundaries is prohibited.

7. Compliance Schedule

7.1 Waste Acceptance Notice

- a. The Permittee shall submit a letter to the Division 30 days prior to acceptance of waste tires stating the Facility will begin processing and request an inspection by the Division to confirm compliance with **NAC 444A.350(2)**.

8. Submitting to the Division

All reports, notifications, or other submissions which are required by this Permit must be submitted by the specified due date to the Division, Permitting Branch Supervisor, and the Solid Waste Permit Writer which can be reached:
