1. Unless the Division determines that a variance is justified, the Division shall cancel a grant that is not completed in accordance with the terms and conditions of the grant, including, without limitation, time schedules.

2. If the Division determines that a project is no longer beneficial, the Division may, upon its own initiative or at the request of the recipient of the grant for the project, terminate the grant 30 days after giving notice of the termination to the recipient. The Division may order a recipient to cease expending money awarded by the grant, effective on the date of issuance of the notice of termination.

3. The Division shall disburse the money awarded by a grant in accordance with the schedule for payments set forth in the grant agreement.

4. If the books, records, documents and accounting procedures and practices of a recipient of a grant are relevant to the grant, they are subject to examination at any time by the Division and other appropriate state officers. The recipient shall reimburse the Division for any costs that have been paid which, as determined by the Division, are ineligible for payment.

5. If the Division makes payments to the recipient of a grant before completion of the project, the recipient shall, upon completion of the project, cancellation of the grant or termination of the project, return to the Division any money that has not been spent. The money must be returned in accordance with the procedure for returning the money set forth in the grant agreement.
