

Get Involved!!

Carson River Snapshot Day October 20th 9am - 12 Noon

A Snapshot in time: On Snapshot day, multiple monitoring teams assess water quality and habitat throughout the Carson River Watershed at the same time. **Register your class now!**

Experience deeper learning through this hands-on field experience.

NGSS DISCIPLINARY CORE IDEAS and TOPICS are addressed during this field study. Educators collaborate with field experts for a craftED student field study and content mastery.

Extending learning beyond the classroom walls allows students to see the application of content in the real world.

Develop Vocabulary! When interacting with experts, students will hear and use content vocabulary and communicate professionally.

"For many of us, clean water is so plentiful and readily available that we rarely, if ever, pause to consider what life would be like without it."

Marcus Samuelsson, Ethiopian-born, Swedish-raised Chef and Restaurateur.
