# Clean Water SRF & Drinking Water SRF

## Priority List Public Workshop
## November 10, 2026

Nevada Department of CONSERVATION & NATURAL RESOURCES

NEVADA DIVISION OF ENVIRONMENTAL PROTECTION

# Public Comments

Those wishing to make public comment that are participating remotely may do so by calling (775) 321-6111 and using meeting extension 831 398 450#, or by raising your hand through the TEAMS module so the moderator may call on you.

# Workshop Materials

Workshop materials are available on our website:
https://ndep.nv.gov/water/financing-infrastructure/state-revolving-fund-loans
Slides are listed under the State Revolving Fund Documents section.

# Draft Nevada CWSRF Priority List – Effective November 2026

# CWSRF Requirement for Ranking

A priority system must be used to rank treatment works* projects that are considered eligible for financial assistance from the fund

- 33 U.S. Code §1383(g)
- NAC 445A.767(1)

The priority system must give highest priority to projects that are necessary to meet the enforceable requirements of the Clean Water Act.

The priority system must also include in the criteria for ranking projects:

- The elimination of pollution from waters within the state,
- The protection of health of the public,
- The attainment of standards of water quality adopted by the state, and
- The operation of the fund in such a manner so as to impose the least possible financial burden on municipalities.

*Projects not considered treatment works are not required to be on a priority list. State regulations are still being amended.

# CWSRF Ranking Process

| Ranking Factors | Points Awarded |
|---|---|
| Priority Class (A, B, C) | Points assigned per Class criteria |
| Water Quality Factors | Applicable to Class A or B only |
| Asset Management Plan | Additional points if applicable |
| Project Readiness | Additional points if applicable |
| Green Projects | Additional points if applicable |
| Affordability Criteria | Additional 25 points possible |

# CWSRF Priority Classes

**Class A: Projects that benefit public health and/or environment**

- Necessary to eliminate documented public health hazards
- To correct existing violations of surface water quality standards

**Class B: Projects to increase reliability or sustainability**

- To maintain beneficial uses
- To address facility flow or loading
- To address sewer system rehabilitation and reclaimed water distribution

**Class C: Projects meeting other clean water needs**

- All other treatment works or pollution control projects

# CWSRF Additional Points

**Water Quality Factors**

- Up to 5 points
- Relates to allowable loadings of pollutants for a waterbody

**Asset Management**

- Up to 3 points
- Relates to whether the system has been proactive in identifying their capital assets, supporting their maintenance, and funding replacement.

**Project Readiness**

- Up to 10 points
- Relates to how far along the project is ready towards construction.

# CWSRF Green Projects

**5 points:**

- Water & energy efficiency upgrades;
- On-site clean power production;
- Reuse of effluent;
- Establishment of restoration of permanent riparian buffers, other vegetative buffers, floodplains, or wetlands;
- Project to manage wet weather & restore hydrology by infiltration, evapotranspiration, or harvesting & use of storm water; or
- Green storm water infrastructure.

# CWSRF Affordability for Additional Subsidy

**Nevada Administrative Code:**

No definition. Program requirements must be outlined in the annual Intended Use Plan. (NAC 445A.764(e))

**Federal Clean Water Act Requirements:**

Section 603(i)(2) requires states to develop criteria for additional subsidization based on income, unemployment data, population trends, and other data determined relevant by the state.

**2026 Clean Water Intended Use Plan:**

- Applicants must achieve at least 50 points on the internal affordability scale to qualify for Affordability Subsidy.
- If disadvantaged, 25 points will be added to priority list ranking criteria.

# CWSRF Affordability Criteria

**Income Factors**

- Median Household Income versus State MHI
- Poverty Levels in the service area

**Population Trends**

- Change in population over a three-year period based upon the latest American Community Survey data available

**Unemployment**

- Percent of the population not in the workforce
- Unemployment rate of service area

**Affordability**

- Whether or not an interest-bearing loan will increase already sufficient user rates by 10%, 20%, or 30%.
  - This also has a look back option for 5 years.
- Residential rates compared to MHI.
  - Based on 1.0%, 1.5%, and 2.0%

**Other Factors**

- Nature of project
- Incentives for project types
- Financial assistance from governmental or political subdivisions

# Draft November 2026 Clean Water Priority List

- Priority Rank
- N[1]: New to the priority list
- D[2]: System/Project initially meets affordability criteria
- G[3]: Project qualifies as green
- Applicant
- Permit No.
- Project Population
- Total Points
- Revised Points (will include affordability points, if applicable)
- Nevada Infrastructure Financial System (NIFS) Project ID
- Project Description
- Program Cost Estimate
- Special Funding[4]
- Funded[5]: Indicates the project has received funding, PF indicates the project has received partial funding, is not complete, and must remain on the list.

| Class A: Project benefits public health and /or the environment | | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Priority Rank | N[1] | D[2] | G[3] | Applicant | Permit No. | Project Population | Total Points | Revised Points | Project ID | Project Description | Program Cost Estimate | Special Funding[4] | Funded[5] |

| **100** | | | | **Nevada Clean Water Priority List** | | | | | | | | | |

Projects must be ranked on the priority list in order to receive funding. Projects are ranked based on the highest priority to meet the enforceable requirements of the Federal Clean Water Act. The Nevada Division of Environmental Protection is authorized to make technical adjustments and bypass projects on the list that are not determined to be ready to proceed.[6]

Please reference our current Clean Water Intended Use Plan on our website for more information:

# Draft November 2026 Clean Water Priority List

| | Projects | Affordability (Disadvantaged) | Green |
|---|---|---|---|
| Previous List | 86 | 56 | 35 |
| Added | 15 | 14 | 2 |
| Removed | 1 | 0 | 1 |
| Current List | 100 | 73 | 36 |
| | | 73% | 36% |

| | Projects | Affordability (Disadvantaged) | Green |
|---|---|---|---|
| Class A | 11 | 11 | 1 |
| Class B | 60 | 43 | 22 |
| Class C | 29 | 19 | 13 |
| Current List | 100 | 73 | 36 |

# Draft November 2026 Clean Water Priority List

NDEP may bypass a project on the priority list if NDEP determines the project is not ready to proceed, fails to file a letter of intent, or the applicant requests action to be deferred. (NAC 445A.7675)

- *Projects ready to proceed may bypass projects with a higher point score that are not ready to proceed.*
- *Written notice is given to systems being bypassed.*

| Funded/Partially Funded | 13 projects (13%) |
|---|---|
| All others | 87 projects (87%) |

# Public Comments

Clean Water Priority List is Final after public comments.

# Draft Nevada DWSRF Priority List - Effective November 2026

Drinking Water Priority List is Finalized during the December 2, 2026, Board for Financing Water Projects meeting.

# DWSRF Priority List Goals

The Division shall prioritize the list to achieve water quality and public health goals consistent with the requirements of the Safe Drinking Water Act.

- 42 U.S. Code §300j-12(a)(3)(b)
- NAC 445A.67567

The Priority List must include:

- Name of each eligible public water system,
- The priority assigned to each proposed water project,
- A description of each water project,
- An estimate of the eligible costs for each project, and
- The existing population of each public water system at the time of application

# DWSRF Ranking Criteria

| Ranking Factors | Points Awarded |
|---|---|
| Priority Class Points (I, II, III, IV) | Points assigned pursuant to NAC 445.67569. |
| Asset Management Plan | Additional points if applicable |
| Disadvantaged Eligibility | Additional 25 points possible |

# DWSRF Priority List Goals

## Per NAC 445A.67569

**Class I: Projects that address:**

- Acute health risks: Demonstrated illness attributable to the public water system
- Significant non-compliance
- Court-ordered compliance
- Systems addressing acute health issues

**Class II: Projects that address:**

- Chronic health concerns: Documented non-compliance with primary or secondary drinking water standards
- Systems addressing chronic health issues

**Class III: Projects that address deteriorated, substandard, or inadequate conditions in a public water system:**

- Consolidation
- Treatment
- Storage
- Transmission & Distribution
- Meters
- Security
- Planning

**Class IV: Refinancing of debt incurred after July 1, 1993**

# DWSRF Disadvantaged

**Nevada Administrative Code amended[1]:**

"Disadvantaged Community" means an area in which, as compared to other communities in this State, residents disproportionately experience economic, environmental or health issues, including, without limitation, high rates of poverty or unemployment. (NAC 445A.675245)

**Federal Drinking Water Act Requirements:**

[42 U.S.C §300j-12(b)(d)(3)] the term "disadvantaged community" means the service area of a public water system that meets affordability criteria established after public review and comment by the state in which the public water system is located.

**2026 Drinking Water Intended Use Plan:**

- Applicants must achieve at least 50 points on the internal disadvantage scale to qualify as disadvantaged.
- If disadvantaged, 25 points will be added to priority list ranking criteria.

[1] https://www.leg.state.nv.us/Register/2022Register/R109-22AP.pdf

# DWSRF Disadvantaged Criteria

**Income Factors**

- Median Household Income versus State MHI
- Poverty Levels in the service area

**Population Trends**

- Change in population over a three-year period based upon the latest American Community Survey data available

**Unemployment**

- Percent of the population not in the workforce
- Unemployment rate of service area

**Affordability**

- Whether or not an interest-bearing loan will increase already sufficient user rates by 10%, 20%, or 30%.
  - This also has a look back option for 5 years.
- Residential rates compared to MHI.
  - Based on 1.0%, 1.5%, and 2.0%

**Other Factors**

- Nature of project
- Incentives for project types
- Financial assistance from governmental or political subdivisions

# Draft November 2026 Drinking Water Priority List

- Priority Rank
- N[1]: New to the priority list
- D[2]: System/Project qualifies as disadvantaged
- C[3]: Water System Classification (community/noncommunity)
- Applicant
- PWS ID
- Project Population
- Project Service Connections
- Total Points
- Revised Points (will include disadvantaged points, if applicable)
- Nevada Infrastructure Financial System (NIFS) Project ID
- Project Description
- Program Cost Estimate
- Special Funding[4]
- Funded[5]: Indicates the project has received funding, PF indicates the project has received partial funding, is not complete, and must remain on the list.

**Class I: Acute Issue**

| Priority Number | N[1] | D[2] | C[3] | Applicant | State ID | Project Population | Project Service Connections | Total Points | Revised Points | Application Number | Project Description | Project Cost Estimate | Special Funding | Funded[5] |

| **200** | | | | **Nevada Drinking Water Priority List** | | | | | | | | **$ 1,110,660,538** | | |

Projects must be ranked on the priority list in order to receive funding. Projects are ranked based on the highest priority to meet the enforceable requirements of the Federal Safe Drinking Water Act. The Nevada Division of Environmental Protection is authorized to make technical adjustments and bypass projects on the list that are not determined to be ready to proceed.[6]

# Draft November 2026 Drinking Water Priority List

| | Projects | Disadvantaged | Small Systems (less than 10,000) |
|---|---|---|---|
| Previous List | 183 | 150 | 151 |
| Added | 20 | 19 | 10 |
| Removed | 3 | 3 | 3 |
| Current List | 200 | 166 | 171 |
| | | 83.00% | 75.50% |

| | Projects | Disadvantaged | Small Systems (less than 10,000) |
|---|---|---|---|
| Class I | 4 | 4 | 3 |
| Class II | 18 | 16 | 16 |
| Class III | 177 | 145 | 151 |
| Class IV | 1 | 1 | 1 |
| Current List | 200 | 166 | 171 |

# Draft November 2026 Drinking Water Priority List

NDEP may bypass a project on the priority list if NDEP determines the project is not ready to proceed, fails to file a letter of intent, or the applicant requests action to be deferred. (NAC 445A.67573)

- *Projects ready to proceed may bypass projects with a higher point score that are not ready to proceed.*
- *Written notice is given to systems being bypassed.*

| Funded/Partially Funded | 48 projects (24%) |
|---|---|
| All others | 152 projects (76%) |

As of November 05, 2026. Data subject to change.

# Public Comments

Drinking Water Priority List moved to the Board for Financing Water Projects, December 2, 2026, meeting for adoption after public comments.
