

Nevada Division of Environmental Protection Notice of Intent to Conduct a Triennial Review of Nevada's Surface Water Quality Standards

The Nevada Division of Environmental Protection (NDEP) is initiating a review of Nevada's Surface Water Quality Standards (WQS). **Please note this review does not apply to Safe Drinking Water Act or groundwater standards.** This review is to evaluate the need to update or revise Nevada's WQS to remain consistent with State and Federal law and to ensure that Nevada's WQS continue to reflect the best available science.

NDEP is soliciting public input from all interested parties on any aspect of Nevada's WQS that should be considered for potential revision. Water quality standards for Nevada surface waters are contained in the [Nevada Administrative Code, Chapter 445A.11704 - 445A.2234](#). Public comments should identify the issue, suggested revision and the basis for the suggested revision, including supporting technical information or reports.

Meetings to discuss WQS and planned revisions will be held at the following locations and dates. The meetings will consist of a brief presentation by NDEP staff followed by a public comment and discussion period. No items will be voted on and no actions will be taken during the public meetings.

Carson City	Elko	Las Vegas
November 26, 2018 9:00 a.m. – 12:00 p.m. Dept. of Conservation & Natural Resources Richard H.
